**Subject:** Thank you for protecting NC's water

Dear Gov. Roy A. Cooper III,

I'm writing to thank you for requesting additional information as you evaluate a decision on the water certification for Duke's proposed Atlantic Coast Pipeline. This project is too much of a risk to our state and jeopardizes already vulnerable communities.

We need leaders like you to continue to protect our waterways, and ensure projects like this don't put extra burden on the Native Americans, low-income residents, and communities of color that would have had the pipeline forced onto their homes and neighborhoods. Thank you!

Please require that any developers hoping to construct potentially environmentally-destructive projects in or through NC adhere to strict regulations and accept the responsibility to prevent adverse effects on people, waters, air, lands, and wildlife, and to prevent and clean up any and all pollution that occurs as a result of the approval of that project.

Keep holding developers' feet to the fire! Thank you for delaying the approval of the ACP! Another pipeline for dirty oil is NOT the answer to NC's energy needs.

Sincerely,

Dr. Donna Newman
